

CapIV™ — MVP V1 Internal Operating Documents

SECTION I: CapIV EQ — Policy & Capital Routing Rule Set (MVP V1)

Purpose:

CapIV EQ governs how capital is classified, constrained, routed, approved, or rejected prior to any allocation.

This document defines the minimum viable rule set required for MVP V1 internal operations.

1. Capital Source Classification:

- Cash / Bank Funds
- Credit-Based Capital (flagged)
- Equity-Derived Capital
- Internal Capital Credits

2. Capital Eligibility Rules:

- Jurisdiction alignment
- Asset-stage compatibility
- Source restrictions (credit cannot directly fund speculative exposure)
- Manual override permitted with logged justification

3. Exposure Constraints:

- Max exposure per asset
- Max exposure per sponsor
- Capital velocity limits
- Leverage ceilings

4. Decision Outcomes:

- Approved
- Approved with Conditions
- Deferred
- Rejected

All decisions must be logged with timestamp, reviewer, and rationale.

SECTION II: CapIV IQ — Decision & Insight Memo Template (FoE Protected)

Purpose:

CapIV IQ provides the judgment and insight layer prior to capital execution.

FoE principles are applied internally and are not disclosed.

Decision Memo Fields:

- Asset Overview
- Sponsor Overview
- Capital Source Summary
- Risk Signals Observed

- Pattern Notes (Behavioral / Structural)
- FoE Insight Summary (Internal Only)
- Recommendation:
 - Approve
 - Approve with Conditions
 - Reject
- Reviewer Signature
- Date

This memo serves as the authoritative record explaining why a decision was made.
